

## *Proposed JCPC meeting agenda for August 14, 2018*

### **Optional Premeeting 6:20 PM - 7:00 PM**

Eric W. will be setup to address a variety of both web and software related topics. Which topic is discussed depends on the preferences of attendees. Topics include:

- Tutorial videos for Skylum software (such as Luminar and Aurora).
- I can set up your own private Wordpress (or other type of) website. There is no cost. You can then play with it and decide if this is right for you.
- How 'full featured' web hosting sites work.
- How our email forwarder handles the JCPC@upshotmd.org email.
- I use a variety of photo related software, and would be happy to show and discuss. These include: FantaMorph, PaintShop, Helicon Focus, jAlbum, Panolapse, Panorado, Panoweaver, Photomatix, Pinnacle Studio, Luminar, Aurora, Photolemur, Smart Cutter, Virtual Dub, and a variety of video conversion programs.

### **Meeting 6:30 PM - 9:00 PM**

- **Shoot Out Planned – Zion Episcopal Church, 301 E. Congress Street, Charles Town, WV. Meet at the Church at 6:30 to take pics outside – there is an old cemetery with graves that date back many years. Then around 7:00, we will be allowed into the church to take pics inside, giving the opportunity for some great low light shots. We will then go back to the Fire Hall Gallery. *For those who don't want to participate in the shoot out, the meeting will be salon style to discuss any items you wish.***
- Club Business – approval of July meeting minutes, website, club dues, photo challenge for August, upcoming shows, etc.
- Photography Challenge "Red, White, and Blue". This was last month's challenge, but we ran out of time and could not get to it, so we will do it this meeting.
- Next Month will be a critique of the photos from the shoot out.
- Next meeting date is September 11.
- Tech Talk – anyone may ask a tech related question, item of interest, etc.
- Any Outstanding Items.
